-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

This is in response to amendment received on 02/27/06. Claims 1, 23, 24, 25, 26, 39 and 46 have been amended and claims 48-60 have been newly added. Due to the addition of claims an election/restriction requirement is being required due to the many embodiments being independently claimed.

Election/Restrictions

1. Claims 1-60 are generic to the following disclosed patentably distinct species:

The Applicant is required to select one of groups A, B or C from below:

A) claims 1-24, 40, 41, 42, 43, 46, 47, 48, 49, 50, 51, 52, 58, 59 and 60: a height adjustable garment with adjusting strips. The garment covers the chest, torso and legs of a user.

B) claims 25 and 53: a height adjustable garment with an adjusting strip and the garment being an outer shell not required to cover any specific body portions but made out of flame and heat resistant material that resists igniting, burning, melting, dripping or separation when exposed to a temperature of 500 degree F for at least five minutes.

C) claims 26, 38, 39, 44, 45, 54, 55, 56 and 57: a height adjustable garment being a one-piece shell shaped to fit and cover the arms, chest, torso and legs of a wearer. The garment made out of heat resistant material and having a height adjusting system.

The species are independent or distinct because the garment of species (A) does not require the same material or the garment to be structured and cover parts of the wearer's body that groups B and C require. Further, the adjusting system of group C does not require the use of adjusting strips as required in groups A and B. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alissa L. Hoey whose telephone number is (571) 272-4985. The examiner can normally be reached on M-F (8:00-5:30) Second Friday Off.
